Quality Assurance Task Force

WORKSHOP ON: *European Specifications of the WFME Global Standards for Quality Improvement in Medical Education.*

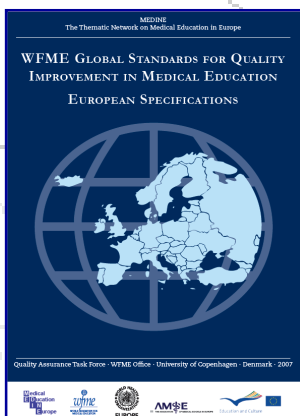

WORKSHOP OBJECTIVES: Validation, dissemination and implementation of these standards

The workshop will start briefly reporting the process to develop the European Specifications of the WFME Global Standards for Quality Improvement in Medical Education and experiences from implementing Standards in Medical Education. This will be followed by small group discussion on the methodological aspects and experiences from implementing Standards at all levels of medical education: basic, postgraduate and continuing medical education. Finally, main conclusions and recommendations will be identified and summarized. Outcomes of the workshop will be presented to AMSE 2008 Annual Conference followed by further discussion (June 6, afternoon session).

CONDUCTED BY: MEDINE Quality Task Force members

- Prof. Iskender Sayek WFME representative Turkey
- Prof. Maria Rosa Fenoll Brunet, member of the Executive Committee of the Association of Medical Schools in Europe, MEDINE Executive Board member and co-chair of the MEDINE Quality Task Force, Rovira i Virgili University (Spain).
- Prof. Jadwiga Mirecka, Jagellonian University of Krakow (Poland)
- Prof. Leif Christensen, WFME Senior Advisor, Copenhagen University (Denmark)
- Paul de Roos, Vrije University Medical Center, Amsterdam (The Netherlands), student member of MEDINE Executive Board and Medical Education Director of European Medical Students' Association (2005-2006).

TARGET AUDIENCE: Participants who have interest to identify and implement European Standards for Quality Improvement in Medical Schools and Programmes.

- Registration: free for registered participants to AMSE 2008
- Location: University of Barcelona, Faculty of Medicine
- Duration of the workshop: three hours
- 09:00-12:00 on June 5, 2008
- Language for presentations and discussions: English
- Keywords: Quality improvement, Bologna process, medical education
