

# IDIBELL SEMINARS

## Academic year 2011-2012. First Term Program

**September 16 2011 13h**

**Sala actes Universitat de Barcelona**

**“Glutamate Receptors: Fast, loose and full of surprises”**

**Andrew Plested**

Molecular Neuroscience and Biophysics  
Leibnitz Institute for Molecular Pharmacology

**September 30 2011 13h**

**Sala actes ICO Hospital Duran i Reynals**

**“Modelling genetic susceptibility to breast cancer: translating genetic research into clinical applications”**

**Antonis Antoniou**

Department of Public Health and Primary Care, Centre for Cancer Genetic Epidemiology, University of Cambridge, Cambridge, UK

**October 21 2011 13h**

**Sala actes Universitat de Barcelona**

**“A histone variant regulating stem cell function”**

**Marcus Buschbeck**

Chromatin and Cell Fate Group, Institut de Medicina Predictiva i Personalitzada del Càncer (IMPPC) Badalona

**October 28 2011 13h**

**Sala actes ICO Hospital Duran i Reynals**

**“Transcription factors and retrotransposons in the control of genomic insulators”**

**Pedro M. Fernández Salguero**

Departamento Bioquímica y Biología Molecular, Facultad de Ciencias, Universidad de Extremadura

**November 4 2011 13h**

**Sala actes ICO Hospital Duran i Reynals**

**“Predicting phenotypic variation from individual genomes.**

**Why would a mutation kill me, but not you?”**

**Ben Lehner**

EMBL/CRG Systems Biology Unit. Centre de Regulació Genòmica (CRG), Barcelona

**November 11 2011 13h**

**Sala actes ICO Hospital Duran i Reynals**

**“Gene Therapy for advanced pancreatic cancer”**

**Louis Buscail**

Department of Gastroenterology and INSERM U858, University of Toulouse, CHU Rangueil, Toulouse, France

**November 18 2011 13h**

**Sala actes ICO Hospital Duran i Reynals**

**“Metabolic control of Mcl-1 expression and its relevance to cancer treatment”**

**Jean-Ehrland Ricci**

Head of Team-3 “Metabolic control of cell deaths” INSERM U895 (C3M), Nice.

**November 25 2011 13h**

**Sala actes ICO Hospital Duran i Reynals**

**“Epigenetic regulation of chromatin structure and function”**

**Ferran Azorín**

Institute of Molecular Biology of Barcelona, CSIC, Barcelona

**December 2 2011 13h**

**Sala actes Universitat de Barcelona**

**“Early exposure to environmental pollution and infant mental development”**

**Jordi Sunyer**

Centre de Recerca en Epidemiologia Ambiental (CREAL) Barcelona

**December 16 2011 13h**

**Sala actes ICO Hospital Duran i Reynals**

**“From basic research to clinical trials in Williams-Beuren syndrome”**

**Luis Pérez Jurado**

Genetics Unit, Inversitat Pompeu Fabra and CIBER of Rare Diseases (CIBERER), Barcelona
