NYU Madrid is looking for a faculty member to teach the course "Foundations of Finance." The course is offered in the fall and spring semesters. Course is taught in English. A Ph.D. is required, as well as prior university teaching experience. A course description is included below.

Interested candidates please send your resume/CV to Natalia Jiménez at natalia.jimenez@nyu.edu by March 15th.

Foundations of Finance

This is a rigorous course developing the basic concepts and tools of modern finance. Basic concepts of return and risk are explored in detail with a view to understanding how financial markets work and how different kinds of financial instruments are valued. These instruments, including equities, fixed income securities, options, and other derivative securities become vehicles for exploring various financial markets and the utilization of these markets by managers in different kinds of financial institutions to enhance return and manage risk. The course includes a segment on the use and application of computer-based quantitative technology for financial modeling purposes.
