

Research line: Meteorology

This research line was developed from the former doctoral program of Astronomy and Meteorology (regulated by RD 778/1998), which has held a quality award from the Ministry of Education and Science since the academic year 2004-05 (MCD2004-00178). The main objectives of this line are: (a) to provide the postgraduate students in meteorology and climatology with the training required to complete a doctoral thesis in one of the currently active research groups at the Department of Astronomy and Meteorology of the Faculty of Physics, and (b) to contribute to the training of professionals with skills in advanced research and able to answer the demands from both public and private sectors in the fields of atmospheric sciences and applied meteorology.

Coordinator: Dr. Maria Rosa Soler, Department of Astronomy and Meteorology, rosa@am.ub.es

Further information about activities in this research area is available at http://www.am.ub.es/ENG/linies_meteo.html
