

Dear colleagues,

The Group of Dynamics of the Lithosphere, based at the Institute of Earth Science "Jaume Almera" (CSIC) in Barcelona (Spain), is seeking to contract a structural geologists to work on the Sierra Madre Oriental in Mexico.

The successful post-doctoral candidate will implement the existing team of 4 researchers who will start working in this region in collaboration with the Norwegian oil company StatoilHydro.

We are looking for a person with field experience on contractional regimes (tightly folded carbonates), available to travel both to Mexico (when safety conditions will return) and Norway.

The successful candidate will be involved in fold and fracture analysis, construction of cross sections and 3D models.

Good English and the capacity to work in team are essential.

Interested candidates should send a CV and/or contact:

Jaume Vergés
