

IPGP Announcement of Term (5-year) Fellowship in Mineral Physics and Experimental Petrology/Geochemistry

The Institut de Physique du Globe de Paris (IPGP) invites applications for 5-year term fellowships in the field of experimental petrology and mineral physics under extreme conditions. The IPGP supports world-class facilities in high-pressure research, mineral physics and petrology. Up to two positions are available over the next 5 years, and will be filled on an open basis. Salary is based on experience and contains a floating negotiable part, plus bonuses. Employees enjoy full health care and retirement benefits supported by French social security.

Applicants should send CV to James Badro at badro@ipgp.fr
