

UNIVERSITAT DE
BARCELONA

RESEARCH CONTRACT

WITHIN THE FRAME OF THE RESEARCH PROJECT IDEM

IMPLEMENTATION OF THE MARINE STRATEGY FRAMEWORK
DIRECTIVE TO THE **DEEP MEDITERRANEAN SEA**

Bathyal muddy bottom ploughed by trawlers

Hostpot of plastic litter at large depth

DETAILS AND OBJECTIVES

IDEM aims to support the next phase of the implementation of the Marine Strategy Framework Directive (MSFD 2008/56/EC), which is the tool of the EU's Integrated Maritime Policy to achieve Good Environmental Status (GES) of marine waters by 2020. The individual selected for this position will review and update the current determination of GES, and help defining environmental targets and criteria/indicators adapted to the deep Mediterranean Basin. Research duties will be carried out in a frame of inter- and multidisciplinary international collaboration. More info at <http://www.msfd-idem.eu/>

WORKPLACE

GRC Marine Geosciences. Department of Earth and Ocean Dynamics. Faculty of Earth Sciences. University of Barcelona, Barcelona.

REQUIREMENTS

Geology, Biology, Environmental Sciences or Marine Sciences degree, with good academic qualifications. Master degree will be an advantage.

Research and/or professional experience on GES indicators will be a must.

High level in written/spoken English, and availability to travel and participate in oceanographic cruises.

APPLICATION PROCEDURE

Those interested should send a CV and a copy of the academic records by email to Miquel Canals at miquelcanals@ub.edu.

Open till filled. Immediate start.
