

Course: Basics on confocal microscopy

Theoretical concepts:

- 1) Introduction to fluorescence and fluorophore properties
- 2) Introduction to confocal microscopy
- 3) Confocal microscopy vs widefield microscopy
- 4) Confocal microscope basic adjustments

Hands-on session:

- 1) Acquisition of a xyz stack
- 2) Acquisition of a xyt stack
- 3) Acquisition of a xyλ stack

Inscriptions: www.ub.edu/ibub/

Location: Unitat de Microscòpia Òptica Avançada – Campus Diagonal. CCiTUB
Facultat de Biologia. Edifici Prevosti, 1^a. 08028, Barcelona
