

International symposium: Mendelian and complex diseases

ORGANIZED BY: Drs. Roser Gonzàlez, Gemma Marfany, Roser Corominas, Bru Cormand, Raquel Rabionet, Susanna Balcells and Daniel Grinberg
(U718-U720 CIBERER – Dept. Genetics, Microbiology and Statistics, University of Barcelona)

Aula Magna, Facultat de Biologia

November 18th and 19th, 2019

November 18th, 2019

17h: Dr. Rosa M^a Coco Martín (Univ. Valladolid)
Phenotypic heterogeneity in rare ocular diseases

18h: Dr. Marcela Ciccioli (APNES, Buenos Aires, Argentina)
Challenges of an association of patients with hereditary retinal and optic nerve dystrophies

19h: Round table:

Dr. Margaret Creus (PedRetina/StargardtGo)

Dr. Gemma Marfany (CIBERER, UB)

Dr. Rebeca Valero (DBGGen)

Social and bioethical aspects of genetic diagnosis of retinal dystrophies

International symposium: Mendelian and complex diseases

Aula Magna, Facultat de Biologia

November 19th, 2019

**17h: Dr. Jordi Surrallés (CIBERER, Hospital Sant Pau,
Barcelona)
Genomic Medicine in Fanconi Anemia**

**18h: Dr. Nina Roth-Mota (Radboud University, Nijmegen,
The Netherlands)
All roads lead to dopamine: exploring the genetic link
between ADHD, obesity measures and brain volumes**
