

Dear Partners,

I am pleased to announce that the **Faculty of Science of the University of Montpellier** is organising its first Summer School on the topic of **Evolutionary Ecology and Biology**.

This program offers participants the opportunity to attend **lectures** entirely taught in English, given by **professors** and **researchers** and visit **various laboratories** within the University of Montpellier. The courses are complemented by **social** and **cultural events**, as well as **field trips**.

The University of Montpellier is at the forefront of research documenting the impact of **global climate change** on ecosystem functioning, unveiling rapid and unpredictable environmental changes.

This selective, interdisciplinary Summer School is open to **third year Bachelor** and **Master students**, with an undergraduate degree in ecology/evolution, geography, and related disciplines.

At the end of the Summer School, you'll be awarded a "**Diplôme Universitaire**" (**University Degree**) in **Evolutionary Ecology and Biology**.

The Eco-Evo Summer School will take place from June 24 to July 3, 2024.

Application information

Tuition Fee: 280 euros

Application deadline: [3 May 2024](#)

Mobility Grant: a €1,000 mobility grant will be awarded to the top 5 applicants

How to register: to register for our Summer School, please fill out the online [registration form](#). Spaces are limited, so be sure to secure yours now!

Further information

Students can find all the information about the Summer School [HERE](#).

We look forward to welcoming your students for an immersive adventure into the fascinating world of Evolutionary Ecology and Biology!

Best regards,
