This volume draws on both historical and contemporary European case-studies to offer a sophisticated account of the relationship between gender and well-being. The authors focus on key discussions of the changing conceptions of well-being from early twentieth century calculations of the relationship between income and the cost-of-living, to more recent critiques from feminist writers. Their findings will be of considerable interest to Sociologists of Health, Gender, Sexuality and Economics.

Contents:
Preface; Gender and well-being from the historical and contemporary perspective, Bernard Harris, Lina Gálvez and Helena Machado; Part I GENDER AND WELL-BEING IN THE EUROPEAN PAST: Gender-based economic inequalities and women’s perceptions of well-being in historical populations, Richard Wall; Measuring gender well-being with biological welfare indicators, Avarinda Gunupalli and Jörg Baten; Anthropometric history, gender and the measurement of well-being, Bernard Harris; Gender and well-being in the Pyrenean stem family system, Marie-Pierre Arrizabalaga; Overexploitation, malnutrition and stigma in a women’s illness: chlorosis in contemporary Spanish medicine (1877–1936), Josep Bernabeu-Mestre, María E. Galiana, Ana P. Cid and Josep X. Esplugues; Changing terms of well-being: freedom, security and commitment on the agenda of Finnish nurses’ associations, Heidi Haggén.

Part II CONTEMPORARY PERSPECTIVES ON GENDER AND WELL-BEING: A proposal for a discrimination index for a non-neutral fiscal policy, Paloma Villota; Violent crime, gender inequalities and well-being: models based on capabilities and crime data for England and Wales, Paul Anand and Cristina Santos; Beyond equality: towards a system of non-androcentric indicators, Cristina Carrasco Bengoa; Living and working conditions: perspectives, concepts and measures, Tindara Addabbo and Antonella Picchio; Incomplete women and strong men – accounts of infertility as a gendered construction of well-being, Helena Machado and Paula Remoaldo; Time to do and time to be? The use of residual time use as a gendered indicator of well-being, Claudine Sauvain-Dugerdil; Summary and conclusions, Bernard Harris, Lina Gálvez and Helena Machado; Index.
