
ECVP 2016: “Illusions Night”

The organizing committee would like to inform you that the call for proposals for installations for the “**Illusions Night**” is now OPEN until the 3rd of April 2016.

As it is now traditional for ECVP, this year there will be a special event entitled “Illusions Night” with a variety of installations that challenge our ideas of how we perceive reality. The event will take place on the 30th of August at the Universitat Pompeu Fabra [communication campus](#), which is near the main ECVP conference centre building.

SUBMISSION GUIDELINES:

- All installations (“illusions”) must have an author, who must be registered for [ECVP2016](#).
- To enter the call, authors should submit a pdf file to the address (<mailto:ecvp2016@ub.edu>) with a short description of the installation and a justification of why they think the work is appropriate for ECVP2016’s Illusions Night.
- The file must also include a suitable title, other contributors, affiliations and funding acknowledgements.
- If possible pictures or diagrams with clear indications of the physical dimensions and requirements of the work should be included in the pdf.

The deadline is 3rd April 2016.

Given the physical limitations of the exhibition room, a shortlist of selected contributions will be published shortly after the deadline.
