SCIENTIFIC FORUM

To what extent does Biodiversity rule Productivity and Stability of Ecosystems?

Acte en motiu del Premi Internacional d'Ecologia Ramon Margalef, 2014

3 Desembre 2014

Aula Magna de la Facultat de Biologia
Universitat de Barcelona

10.00 h **Institutional Welcome**

Rector Magnífic de la Universitat de Barcelona, Prof. Dr. Dídac Ramírez

10.20h **Main Conference**

Biodiversity: From Evolutionary Origins to Ecosystem Functioning

Prof. Dr. David Tilman (Minnesota University, USA)

Awarded Ramon Margalef Prize in Ecology, 2014

11.20h **Pause**

11.45h **Round Table** with Prof. Dr. D. Tilman and Guest Speakers:

- Dr. Fernando Valladares (Research Professor, CSIC-MNCN. Expertise in ecophysiology and plant evolutionary ecology).
- Dr. Francisco Lloret (Professor of Ecology, UAB-CREAF. Expertise in plant diversity and community functioning)
- Dr. F. Xavier Sans, (Professor of Botany, UB. Expertise in biodiversity in agroecosystems and agroecology)
- Chairman: Dra. Emilia Gutiérrez (Professor of Ecology, UB. Expertise in dendrochronology and population ecology)

12.45h **General Discussion**

13.45h **Closure**
