The negotiators. How to make peace

Rosalind Bain, Spain, Austria, Switzerland, 2022.
Documentary. 86'.

Documentary shot in several countries around the world, from Colombia, in Latin America, to southern Sudan, in Africa; different countries with a common denominator: having been torn apart by internal conflicts for decades.

But where there is an entrenched war there are also people who are trying to end it: the negotiators, neutral intermediaries who seek solutions for peace.
