

## IFCS2015

### **SP7: Accuracy and validation in clustering and scaling models I, - Chair: J. F. Vera (Room III)**

*Prediction error in distance-based generalized linear models*, Eva Boj del Val, Teresa Costa Cor, Josep Fortiana Gregori.

*Prediction Accuracy in Logistic Biplots for categorical data*, José Luis Vicente-Villardón, Julio César Hernández-Sánchez.

*Cluster Analysis and Distance Stability in Multidimensional Scaling*, José Fernando Vera.

### **SP17: Accuracy and validation in clustering and scaling models II, organized by J.F.Vera - Chair: M. Comas (Room 21)**

*Stability analyses in human exposure to background air pollution in urban environments*, Álvaro Gómez-Losada, José F. Vera-Vera.

*An extension of the Adjusted Rand Index for fuzzy partitions*, Sonia Amodio, Antonio D'Ambrosio, Carmela Iorio, Roberta Siciliano.

*An integrated formulation for merging mixture components based on posterior probabilities*, Marc Comas-Cufí, Josep Antoni Martín Fernández, Glòria Mateu Figueras.
