Technical details of the Poll and Analysis

Technical Sheet

Polling population

3,273 researchers (PhDs students, postdocs and Teaching & Research Staff-PDI)

Timeframe of the Survey

From November 19 to December 3, 2018

Communication

Invitation to participate via e-mail and several reminders

Average duration of the survey

14 min 5 sec

Sample

469 answers (14.33% of the population)

Methodology

CAWI (Computer Assisted Web Interviewing) through the application LimeSurvey

Survey management and data processing

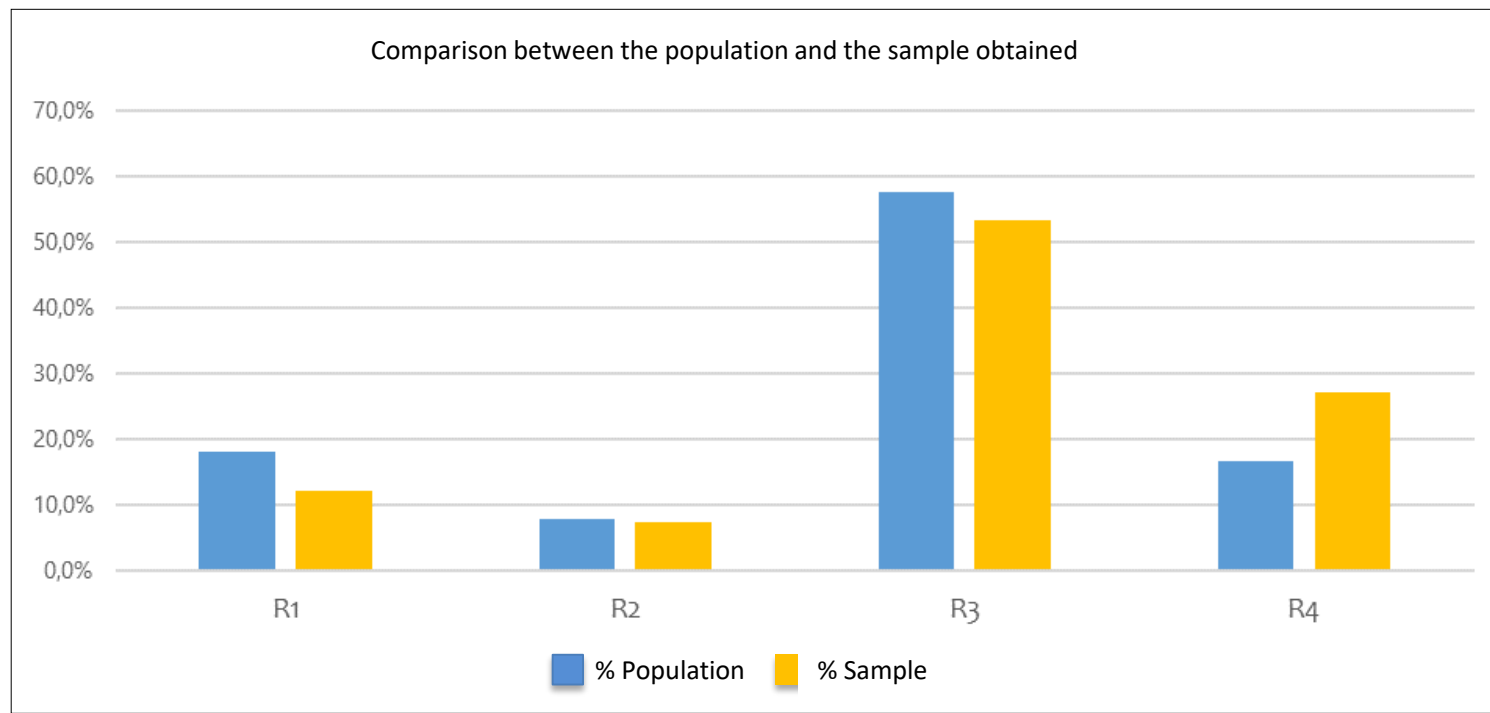

Technical Bureau at the Rector's Office

Population, sample and participation

Distribution by category R of the researchers who responded to the survey compared to the group of UB researchers invited to participate.

Main Issues - Qualitative

Summary of Main Issues

R1

- Endogamy
- UB does not guarantee the contract of postdocs
- Prevalence of UB CVs
- Contracts as “associats” in paralell to PhD

- Most recurring themes
- Other comments

R2

- Endogamy
- Transparency is lacking in staff recruitment protocols (in job positions creation, in the composition of selection committees,...)
- The system is not merit-based
- Internal promotion sold as open recruitment processes
- Unbinding criteria is not followed
- Serra Hunter programme for Tenure-Track Lecturers (Lector) not efficient
- Excellence is not taken into account

R3

- Endogamy
- Absence of transparency in recruitment protocols
- Lack of positions (abuse of the Adjunct lecturer position (*professors associats*))
- Quantitative evaluation
- Maternity / Parental / Family leave
- Non conventional career paths

R4

- Endogamy
- Absence of transparency in recruitment protocols
- Recruiting and signing a contract is a nightmare
- Unbinding criteria is not followed when applying for a permanent position
- Acknowledgement of titles
- Absence of qualitative assessment

Largely agrees with quantitative analysis
(more specific issues)

Main Issues:

- Positions not entirely merit-based due to influence in favour of internal candidates
- Insufficient transparency in recruiting practices
- Insufficient recruiting

Route to selection of specific actions:

- Focus group managed by external company: Identification of key concerns
- Proposal by HRS4R coordinators
- Discussion and approval by HRS4R working group

Topics of discussion in the Focus Group (relevant and actionable):

- Failings of the recruitment process:
 - Open
 - Transparent
 - Merit-based
 - Non-discrimination (breaks, non-conventional trajectories)

Q23	3.2 Ensures a stimulating environment for research	2.2/4

Main Issues

Working conditions (especially regarding financing) are not adequate
 There is an excessive contractual instability for the research staff
 There is not a strategy for the development of the research career
 The research environment is not stimulating
 Lack of professional guidance for research staff

Globally this block 3 is of most concern
 Non-obvious translation from issues to actions

Main Issues - Qualitative

Summary of Main Issues

R1

- Abuse of the contracts as “*professors associats*”
- PhD Students teaching more than 60 h
- No training offered to PhD Students
- There is no mechanism for conflict resolution within the groups / departments

R2

- Abuse of the contracts as “*professors associats*”
- External personnel (contracts with Bosch i Gimpera)
- Lack of work conciliation policy
- Inequalities men/women
- Personnel hired through the Bosch and Gimpera Foundation cannot participate in the decision making process

R3

- Abuse of the contracts as “*professors associats*”
- Lack of teaching reduction
- Instability
- Lack of work conciliation policy
- Academic career not defined

R4

- Abuse of the contracts as “*professors associats*”
- Lack of recognition for researchers at the UB with no UB contract
- Lack of teaching reduction
- Little transparency and a lot of bureaucracy in project management
- Little support for European projects
- Lack of a university research career
- Little research support in general
- UB does not have research projects on its own
- Reduction of the number of grants

- Most recurring themes
- Other comments

Largely agrees with quantitative analysis
(more specific issues)

Main Issues:

- Excessive use of the category of “*professor associat*”
- PhD students teaching more hours than theoretical limit
- External personnel not recognised
- Insufficient discount of teaching hours for research-intensive professors
- Research career is not defined

Route to selection of specific actions:

- Focus group managed by external company: Identification of key concerns
- Proposal by HRS4R coordinators
- Discussion and approval by HRS4R working group

Topics of discussion in the Focus Group (relevant, actionable & new):

- Failings in the working conditions for researchers
 - Contract instability
 - Funding, resources & research environment
 - Balance with teaching (R1: over the legal limit?)
 - Family/work balance
- Failings in supporting the research career
 - Strategy for career development
 - Professional development (career advice and job placement assistance)

Q37	4.2	Ensures that the professional development of its trainee research staff is supervised to the highest professional standards.	2.6/4

Main Issues

The UB should ensure **a better relationship between supervisors and trainee researchers in a way that this supervision becomes more defined and structured** according to professional standards: keeping records of all work progress and research findings, obtaining feedback by means of reports and seminars, applying such feedback and working in accordance with agreed schedules, milestones, deliverables and/or research outputs.

Senior researchers should devote particular attention to their multi-faceted role as supervisors, mentors, career advisors, leaders, project coordinators, managers or science communicators. They should perform these tasks to the highest professional standards. **With regard to their role as supervisors or mentors of researchers, senior researchers should build up a constructive and positive relationship with the early-stage researchers, in order to set the conditions for efficient transfer of knowledge and for the further successful development of the researchers' careers.**
